## High School Donor Recognition Program

We at BBH aim to honor our young donors embarking on a lifetime of giving. Every donation completed by a student **by April 30<sup>th</sup> of the graduating school year** will be credited towards a special edition blood donor pin exclusive to high school students for participating schools.

**Please note:** You can start working towards this recognition at the age of 16.

All donations completed on the student's school campus are automatically credited towards this recognition program. The school's unique Lifesaver Club sponsor code **MUST** be provided at registration for blood donations made off campus. Student must actually donate (needle must go in arm) in order for it to count towards the high school recognition program.

**If you do not know your school's specific Lifesaver Club sponsor code, please email [info@bbh.org](mailto:info@bbh.org).**
